

# School Nutrition Program Annual Online Mandatory Training

---

Federal law requires all National School Lunch Program (NSLP) and School Breakfast Program (SBP) sponsors to complete an annual training on administrative procedures. The training currently includes nine modules on key topics such as Cafeteria Funds, NSLP and SBP eligibility, verification, menu planning with the New Meal Pattern requirements, food safety, meal counting, civil rights, and school wellness policies, as well as quizzes and an evaluation on the topics.

The training modules and quizzes are available for a two-month period each year with a deadline for completing the quizzes. The training modules are available year round and can be used for training or review purposes. They can be found on the Cal Pro NET Web site at [http://calpronet-sj.org/modules\\_snp\\_15-16.htm](http://calpronet-sj.org/modules_snp_15-16.htm).
